We are obliged to store your contact data. The following data will be retrieved:

- Name
- Address
- Email-Address (optional)
- Phone number (optional)
- Date and Time (automatically)

Your data will be deleted automatically when the retention period has passed.

Enter the data yourself on your smartphone
Please scan this QR code with your smartphone and enter your data on the website which will open. This website also contains our data privacy statement.

Scan your business card
Do you already have your contact data available as QR code, e.g. on your business card or on your Smartphone? Then use our Scanner – just present your QR code to the scanner. There will be a green checkmark when your data is stored. If that doesn't work, please enter the data yourself.
Standard business cards (without QR code) cannot be read yet.

No smartphone available, or don't want to enter your data digitally?
Please use the displayed forms to enter your contact data.
